## Bible Journeys – Passover

This rotation focuses on the plagues Moses puts on the Egyptians leading up to and including Passover. The children will discuss the Passover and the Israelites' departure from Egypt.

Younger children love to cook and they will be making unleavened bread in Thou Art. They will bring home the recipe if you want to make some at home as well.

The older children will use the art rotation to prepare a Seder plate for the Seder meal in Red Sea Productions. The children will also recognize through this rotation that God kept God's promises to protect suffering people. They will also appreciate God's power and how God uses people to carry out God's promises.
